Fresh 18 ran from his lips and there was a terrible 19 of blood! The vampire was resting after his 20 . His eyes were open, but he did not 21 . I could see his long, white 22 . I heard men coming and I 23 at the back of the chapel. The men came into the chapel and hammered down the lids of the boxes. I heard them pulling the boxes along the ground.

A door was shut and 24 Count Dracula was on the way to England and I was locked in his castle! I ran down the passage, up the stone stairs, and back to the Count's room. I put some of the gold coins in my 25 and ran to the open window. The ground was many metres below. Wth a prayer to God, I climbed out of the window and moved slowly down the wall.
