OUR ADVENTURE BLOG by Lily, Josh and Ravi

In this adventure, we enter a car race and Lily makes our boat. The boat doesn´t work because it´s only got two batteries. First, we make a chair, but that doesn´t work because it isn´t raining. Next, we want to use electric power, but we haven´t got anything we can use as solar panel. Finally, Mum helps us make a battery out of oranges. We can´t believe it when the boat moves. We don´t win the race, but it´s great fun!
