She ..... the first girl on the moon
She didn't compromise
When she ..... off that cold afternoon

Heading for the northern skies
I told her I could come

That I ..... come along
She was the first girl on the moon
I think I was her only fiend
She ..... her ray-gun an old harpoon

Just in case of accidents
I ..... her I could come
That I could come along
She ..... me come along
Wave goodbye, wave goodbye

She was the first girl on the moon
Standing tall, flag in hand
She ..... around humming a tune
The strangest song known to man

I told her I could come
That I could come along
She never let me come along
Wave goodbye, wave goodbye
