My new bicycle

……Go to your local shop or have a look online and see if you can find it! It is one of the cheapest models out there and is available in a range of colours.

……The *Abacus cruiser* is light and really comfortable. In fact, the saddle is the most comfortable I have ever had as it is made of leather. What is more, you can ride it easily in the rain as the tyres are made of good thick rubber that does not slip on wet roads.

……It's a road bike and although it isn't as high-tech as the ones in the Tour de France, it still goes pretty fast. I love the fact that it's so comfortable to ride and very light. It has three gears, which are all I need because I live in such a a flat part of the country that I wouldn't use more if I had them. However, don't worry if you live somewhere hilly, the nine-gear models are not very expensive either.

……I recommend it to anyone because it's cheap and great to ride. It is probably the best bike you can buy at the moment.

……I was given a new bicycle for my birthday. I went to choose it with mi mother in Jones' Bikes, our local bicycle shop. I chose a red *Abacus cruiser* and it cost my mother 200. All the other bicycles I've ever had were second-hand, so I'm still getting used to how shiny and amazing it looks. Apart from looking cool, my new bike is great to ride.
