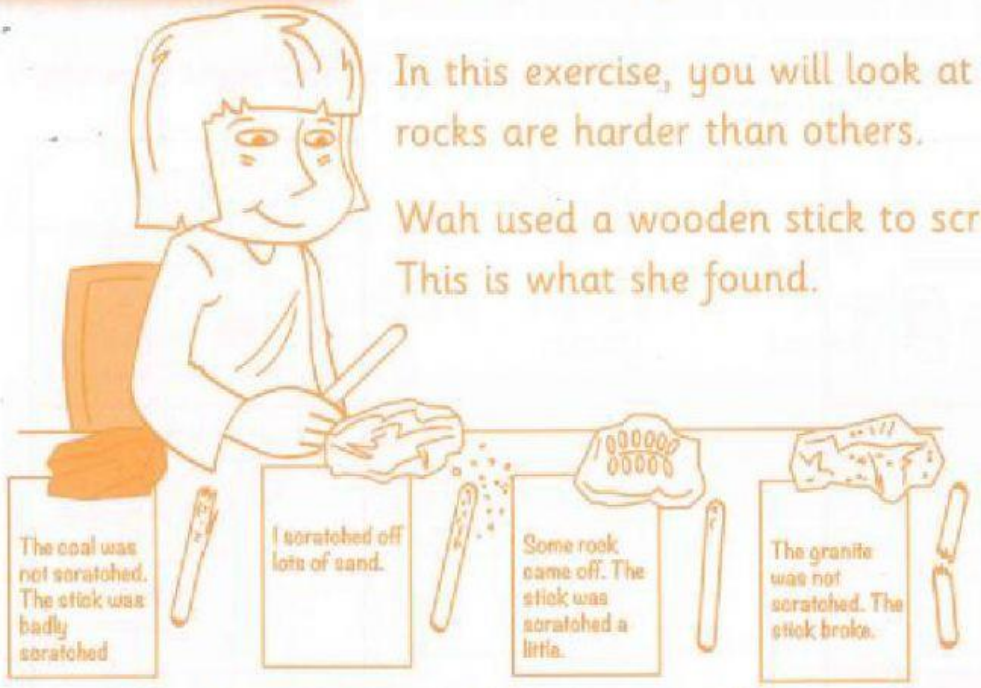
2 Looking at rocks

Exercise 2.1 Comparing rocks

In this exercise, you will look at how some rocks are harder than others.

Wah used a wooden stick to scratch rocks. This is what she found.



Complete the sentences. Use these words.

granite	hard	sandstone	soft

1. The softest rock was _____.
2. The hardest rock was _____.
3. The coal and granite damaged the wooden stick because they are _____.
4. The limestone and sandstone did not damage the wooden stick very much because they are _____.
