PERCENTAGE INCREASED AND DECREASED

Name _____

Question	Number	10%	20%	5%
1.	240			
2.	520			
3.	2600			
4.	780			
5.	60			
6.	90			

1. Find 240 increased by 10%

   10% of 240 = ____

   240 + ____ = _____

2. Find 780 decreased by 10%

   10% of 780 = ____

   780 - ____ = _____

3. Find 90 increased by 10%

   10% of 90 = ____

   90 + ____ = _____

4. Find 520 decreased by 10%

   10% of 520 = ____

   520 - ____ = _____

5. Find 240 increased by 20%

   20% of 240 = ____

   240 + ____ = _____

6. Find 60 decreased by 20%

   20% of 60 = ____

   60 - ____ = _____

Now try these without the help from your table:

9. Find 220 increased by 20%

   10% of 220 = ____

   20% of 220 = ____

   220 - ____ = _____

10. Find 840 decreased by 20%

    10% of 840 = ____

    20% of 840 = ____

    840 - ____ = _____

LIVEWORKSHEETS

PERCENTAGE CHANGE

1) A remote control car costs $60. It is reduced to $45 in the sale. By what percentage was the price reduced?

_____ - _____ X 100 =
