Roman Numerals

Roman Numerals were used for counting in Ancient Rome long ago. The numbers are written as letters of the alphabet. If larger values are in front of smaller values, add. If smaller values are in the front of larger values subtract.

I - 1	VI-6	XI- 11	XVI-16	XXI- 21
II - 2	VII- 7	XII- 12	XVII -17	XXII- 22
III - 3	VIII- 8	XIII -13	XVIII- 18	XXIII- 23
IV - 4	IX- 9	XIV- 14	XIX - 19	XXIV- 24
V- 5	X- 10	XV- 15	XX - 20	XXV- 25

Remember <u>DO NOT</u> use more than three of the same letters in a row!
