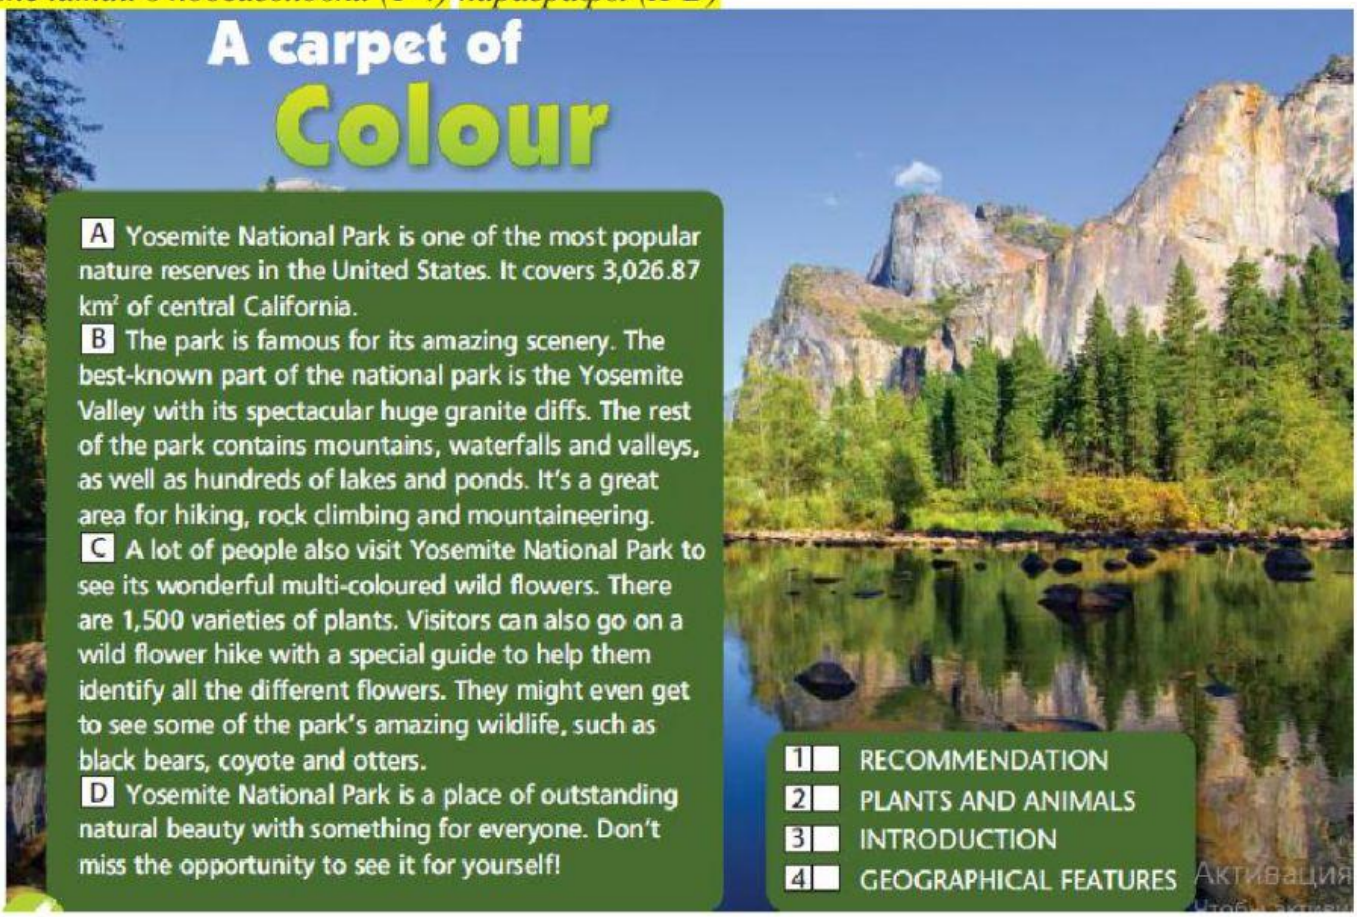
The paragraphs of this article are coming in a wrong order. Read the article and match the paragraphs (A-D) to the headings (1-4) below.

Прочитай статью. Параграфы располагаются в не правильном порядке. Соотнеси впечатай в подзаголовки (1-4) параграфы (A-D)



A carpet of Colour

A Yosemite National Park is one of the most popular nature reserves in the United States. It covers 3,026.87 km² of central California.

B The park is famous for its amazing scenery. The best-known part of the national park is the Yosemite Valley with its spectacular huge granite cliffs. The rest of the park contains mountains, waterfalls and valleys, as well as hundreds of lakes and ponds. It's a great area for hiking, rock climbing and mountaineering.

C A lot of people also visit Yosemite National Park to see its wonderful multi-coloured wild flowers. There are 1,500 varieties of plants. Visitors can also go on a wild flower hike with a special guide to help them identify all the different flowers. They might even get to see some of the park's amazing wildlife, such as black bears, coyote and otters.

D Yosemite National Park is a place of outstanding natural beauty with something for everyone. Don't miss the opportunity to see it for yourself!

1 ☐ RECOMMENDATION
2 ☐ PLANTS AND ANIMALS
3 ☐ INTRODUCTION
4 ☐ GEOGRAPHICAL FEATURES
