

Name in English

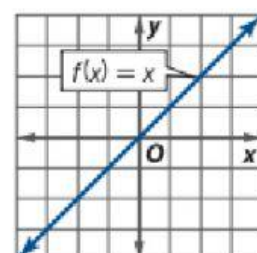

1. Identify the function name for the given graph.

- | | |
|-------------------------|------------------------------|
| a) Constant function | e) Absolute value function |
| b) Square root function | f) Identity function |
| c) Quadratic function | g) Greatest integer function |
| d) Cubic function | h) Reciprocal function |

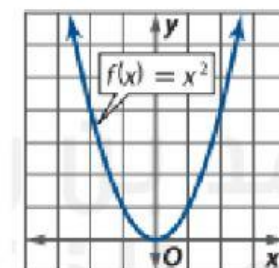

2. Identify the function name for the given graph.

- | | |
|-------------------------|------------------------------|
| a) Constant function | e) Absolute value function |
| b) Square root function | f) Identity function |
| c) Quadratic function | g) Greatest integer function |
| d) Cubic function | h) Reciprocal function |

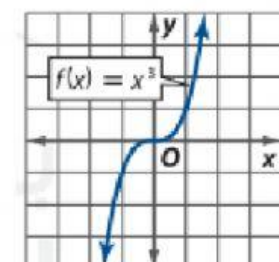

3. Identify the function name for the given graph.

- | | |
|-------------------------|------------------------------|
| a) Constant function | e) Absolute value function |
| b) Square root function | f) Identity function |
| c) Quadratic function | g) Greatest integer function |
| d) Cubic function | h) Reciprocal function |

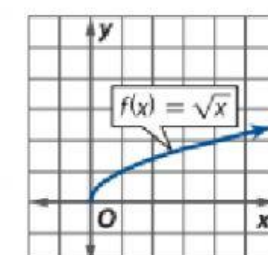

4. Identify the function name for the given graph.

- | | |
|-------------------------|------------------------------|
| a) Constant function | e) Absolute value function |
| b) Square root function | f) Identity function |
| c) Quadratic function | g) Greatest integer function |
| d) Cubic function | h) Reciprocal function |

5. Identify the function name for the given graph.

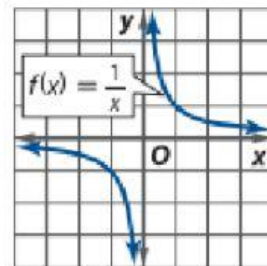

- | | |
|-------------------------|------------------------------|
| a) Constant function | e) Absolute value function |
| b) Square root function | f) Identity function |
| c) Quadratic function | g) Greatest integer function |
| d) Cubic function | h) Reciprocal function |

6. Identify the function name for the given graph.

- a) Constant function
- b) Square root function
- c) Quadratic function
- d) Cubic function

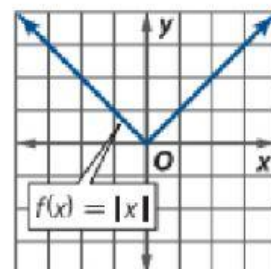

- e) Absolute value function
- f) Identity function
- g) Greatest integer function
- h) Reciprocal function

7. Identify the function name for the given graph.

- a) Constant function
- b) Square root function
- c) Quadratic function
- d) Cubic function

- e) Absolute value function
- f) Identity function
- g) Greatest integer function
- h) Reciprocal function

8. Identify the function name for the given graph.

- a) Constant function
- b) Square root function
- c) Quadratic function
- d) Cubic function

- e) Absolute value function
- f) Identity function
- g) Greatest integer function
- h) Reciprocal function
