Activity 2

Pay attention to the dialogue below then answer the questions!

Helmi : Retno, what do you think is the best action to reduce global warming?

Retno : I think everyone should start life changing their way of life.

Helmi : What do you mean?

Retno : Well, we have to start to de what we can, to help to reduce global warming.

Helmi : What do you suggest that we should do?

Retno : Well, there are lots of things that we can do. We should start saving electricity,start recycling.things, start using public transport means, buying and consumingas much as we need only, etc. Basically just save anything that we can.

Helmi : Wow. You know a lot of things about reducing global warming. Where did

youlearn all of that from?

Retno : Well, I read newspapers, magazines, and also search for information in the internet. Actually, I want to inform what I've learned to everyone so that everybody can start helping to save our mother nature.

Helmi : You're so awesome. How about if you write **it** in our school magazine next month?

Retno : That's a great idea. I'll do that.
