A. American B. Canadian C. British

10. I'm not keen _____ pop music.

A. into B. on C. in

4. (17 questions)

Hi Liam,

How are you? I'm in York with my mum and my brother. Do you know York? It's a beautiful old city in the north of England. We're staying in a nice B & B near the train station. We didn't want to stay in a hotel because it was more expensive.

We love sightseeing so we're having a great time here. On Friday, we visited the York Castle Museum. It was amazing! We walked along the Victorian streets and we felt like we were in the 1870s. Everything looked so real. There were shops with the same products that people baught in the past. The shopkeepers wore clothes from Victorian times: long dresses and hats. On Saturday, we went to the Viking Museum. Can you imagine a Viking city 1,000 years ago? Here you don't have to imagine it, it's happening. We saw inside Viking houses, we heard Vikings speaking their language and smelt the food they cooked. I took a lot of photos so you'll see it all later.

Tomorrow, we're going to see the cathedral and have lunch in a nice restaurant.

Write soon,
Anabelle

a. Read the email and tick (✔) the things Anabelle writes about and cross (X) the things she doesn't write about.

0. York ✔

1. where she is staying _____

6. On Saturday, Anabelle went to the _____.
7. Tomorrow, Anabelle is going to visit the _____ and go to a _____.

5. (3 questions)

Read and answer the questions.

a. Earthquake facts

Every year, there are more than a million earthquakes. Don't worry! A lot of them are small. Earthquakes happen when the Earth's plates under the sea bed move. One of the world's largest earthquakes happened on 26" December 2004 in the Indian Ocean near Indonesia. More than 230,000 people died from the earthquake and the resulting tsunami. More recently, on 11th March 2011, more than 16,000 died when a huge earthquake started 72 kilometres under the sea in the north-east of Japan. Here's how to be prepared!

b. Before an earthquake

There isn't much time before an earthquake so it's a good idea to have a survival kit. For instance, put a torch, a radio, a first-aid kit, a blanket, some money, a few clothes and enough food and water for two or three days into a bag ready to use.

c. During an earthquake

When an earthquake starts, find a place to hide. For example, tables and desks are good, but make sure you hide under them. Try to protect your head and neck with your arms. It's better to stay indoors during an earthquake, but if you're outside try and protect yoursell from things like glass from windows or falling objects. If possible, try and move to a hilly area. Stay calm and don't panic!

d. After an earthquake

The Earth often continues moving and shaking for a few minutes after an earthquake. These are the aftershocks. Don't leave your house or school for about ten minutes afterwards.

Questions:

1. When and where did one of the world's largest earthquakes happen?

_____

2. Where did the Japanese earthquake start?

_____

3. Name a good place to hide if you are indoors during an earthquake?

_____
