IV . Read :

Read and check True or False

Everyone wants to reduce pollution . But the pollution problem is as complicated as it is serious . It is complicated because much pollution is caused by things that benefit people . For example exhaust from automobiles causes large percentage of air pollution . but the automobiles provides transportation to milions of people . Factories discharge much of the material that pollutes air and water but factories give employment to a large number of people . Thus , to end or greatly reduce pollution immediately , people would have to stop using many things that benefit them . most people do not want to do that , of course . But pollution can be gradually reduced in several ways . Scientists and engineers can work to find ways to lesson the amount of pollution that such things as automobiles and factories cause . Governments can pass and enforce laws that require businesses and individuals to stop , or cut down on certain polluting activities .

1. Most people want to reduce pollution .
2. Pollution problem is neither complicated nor serious .
3. Pollution is brought about by things that benefit people .
4. People have to sacrifice what they have to stop or reduce pollution .
5. The government can't do anything to stop or reduce pollution .

V. Write :

A. Use the correct form of the word in brackets.

1 . In ……(west) countries , they are now interested in saving money and natural resources .
