Division Using Grouping

Division means to share, to divide, to split to put into equal groups or sets.

Using equal groups

12 ÷ 3 = 4

- 12 — **Dividend** total number of objects
- 3 — **Divisor** number in each group
- 4 — **Quotient** number of equal groups

Drag and drop the objects to create groups to help you divide.

1. 13 ÷ 2 = ____

2. 9 ÷ 4 = ____

3. 15 ÷ 6 =____

4. Divide into groups of 2.

☐ ÷ ☐ = ☐

5. Divide into groups of 5.

☐ ÷ ☐ = ☐

6. Divide into groups of 3.

☐ ÷ ☐ = ☐
