Adverbs That Compare

Adverbs tell when, where, or how something happened. They can also be used to compare actions. Add the ending *–er* to adverbs to compare two actions. When the adverb ends in *–ly* place the word *more* or *most* in front of the adverb. To compare more than two actions, add the ending *–est*.

Adverb	Comparing Two Actions	Comparing More Than Two Actions
fast	faster	fastest
quickly	more quickly	most quickly
