Tony can do other things, too. He loves writing books and he even makes computer games! Lots of people buy his books. His book 'Hawk- Occupation: skateboarder' is excellent and it's famous in the United States.

Tony also has a skateboarding and music show and he performs all around the United States and Canada. He doesn't play the music in his show- he can't play the guitar or sing- but he performs his acts with other people, and some musicians play rock music.
