# 13 Web Browsing: Actions

HOME ABOUT US OUR SERVICES CONTACT

## Getting Started with EZ Browser

If you're new to EZ Browser you're in the right place. Use this guide to learn about our best features and how they work.

- **It's all about speed**

Tests show our browser's **load** time is twice as fast as our leading competitor. In the rare case our browser **hangs**, just click the '**refresh**' button.

- **Personality counts**

We all have our favorite apps. We make it easy to **enable** and **disable** your apps and add-ons. To save your favorite pages, you can **bookmark** with one click.

- **Harmony matters**

Want to access your home computer from any device? We can do that, too. Just set up EZ Harmony and **log in** from your laptop or mobile device. Click the Harmony **link** from our home page. **Enter** your username and password and get access to your computer. When you're ready to sign off, just click the '**log out**' button.

Ready to get started? Then **download** EZ Browser now to get surfing fast!

**1** What is the main purpose of the article?

- ○ **A** to give step-by-step directions for opening a browser
- ○ **B** to compare multiple browsers
- ○ **C** to explain how to troubleshoot a browser
- ○ **D** to introduce features of a browser

**2** Which of the following is NOT a feature mentioned in the web page?

- ○ **A** automatic log out
- ○ **B** accessing your computer from any device
- ○ **C** bookmarking favorite pages
- ○ **D** fast load time

**3** What is the Harmony feature for?

- ○ **A** to make browsing faster
- ○ **B** to allow access to your computer from anywhere
- ○ **C** to make browsing anonymous
- ○ **D** to enable apps and add-ons

Set up EZ Harmony on the device, _____ _____, click the _____ on the home page, and _____ your username and _____ to access your _____.

1. Match the words or phrases with the definition. Write the word in.

disable | enable | enter | log in | load | hang | link | log out
