Objective **Being asked to express their opinion about artificial intelligence, students will be able to do online research on AI and present their findings in a graphic organizer correctly by 80%.**

Artificial Intelligence: It leverages computers and machines to mimic the problem-solving and decision-making capabilities of the human mind.

Essential Question: Is artificial intelligence (AI) good for societies?

I think AI is good for societies.	I do not think AI is good for societies.

Reason Onee → Reason Two → Reason Three → Reason Four

Use your research findings to write a paragraph expressing your opinion about artificial intelligence. You should include reasons and examples.
