Families ,families

Family Values and Society

Saudi Arabia has many assets. To build a good future, we have a vision for the country. This vision has three themes. One of these themes is a good society. Families are very important in society. They protect society and they care for the children. A very important part of our country is Islamic values. Islam helps families stay together. Saudi Arabia provides families with support for their children. It assists parents with their children's education. Families care for their children and for the future of the country.

Every family wants a home. Saudi Arabia also helps its families to buy homes and feel safe.

What are the sevices Saudi Arabia provides for its families?

Saudi Arabia services for its families.
