STANDARDIZED ASSESSMENT

PART I - READING COMPREHENSION 1

1. ***Read the text and answer the questions.***

THE SCHOOLS OF THE FUTURE.

Scientists predict that the most intelligent computers will be created, capable of performing tasks that only humans can do. They will do household chores, do accounting work in offices, cause a revolution in education. And, if you ask yourself, what will education be like in the future? Will there be more schools? Teachers will not cease to exist, but computers will be able to give their own lessons, even some will study in a virtual way, technology and its virtual reality will give the possibility to interact in almost real environments or in 3D, maybe they will feel that they are really in school, humans and computers will be so related and connected that messages can be sent from the brain to the computer.
