7.1:Find Area of Parallelogram and Rhombuses

Task 1

(Do NOW)

Time: 2 minutes

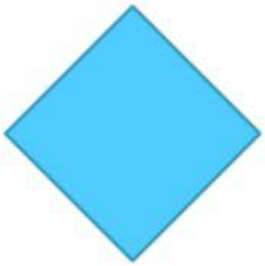
Learning intention

Use Formula to find the Area of parallelograms and rhombuses

Polish your mind, trust it, and recall Your skills, then answer the question :

Match the shape with its name for the following shapes:

Rhombus



Parallelogram

Success Criteria:

1- I can identify the Area of parallelograms and Rhombuses

2- I can Compute the Area of parallelograms and Rhombuses

3- I can Apply The Area of parallelogram and Rhombuses in Real life Application

4- I can generalize the formula and find the missing height or width from given Area of parallelogram or Rhombuses

Vocabulary:

- *Area , Parallelogram , Rhombus.*
