## Zero Conditional Integration (December)

**¿Cómo lo utilizamos y para qué?**

**RECORDÁ QUE EN ZERO CONDITIONAL SIEMPRE USAMOS PRESENTE, TANTO EN LA CONDICIÓN COMO EN EL RESULTADO.**

| IF/WHEN | CONDITION | RESULT |
|---|---|---|
| | PRESENT SIMPLE | PRESENT SIMPLE |
| If/When | you heat butter | it melts |

| RESULT | IF/WHEN | CONDITION |
|---|---|---|
| PRESENT SIMPLE | | PRESENT SIMPLE |
| Butter melts | If/when | you heat it |

We use the zero conditional when the result of the condition is always true and obvious.
