Class book pages 32-33

3 Club talk. Read these texts and decide which Club Talk member is from a village, town or city.

CLUB TALK

1 It's quiet and peaceful where I live. There is a beautiful oasis to walk in with tall palm trees and a cool falaj. I know everyone who lives here and we always visit each other's houses. There are about ten houses, a few shops and a small mosque. The best thing is the weekly souk where people come to sell cows, goats and camels.

Village

City

2 I like it here, because there's a small park near my school where I go and play with my best friends. Sometimes we go to the park for picnics with my family. Opposite the park are the shops and the post office. I like going shopping with my mother, especially to the souk where you can buy anything you want. There's also a large mosque where my father and brothers go to pray every day.

3 It's really busy here and it can be quite noisy at times with all the traffic. However, there are lots of shops and shopping centres to visit and a large park with a funfair. Sometimes we go there at the weekend with my family. Sometimes, some of my friends from school come to visit me in our flat, or we go out to watch a film at the cinema.

Class book pages 34-35

1 Read and answer.

Some ITC members have been writing about where they live for their projects. Read what they have written and answer the questions

Draw a line between the questions and answers.

1. Which is the largest city?
2. Which is the most northerly city?
3. Which is one of the cleanest cities?
4. Which is the coldest city?
5. Which is one of the dirtiest cities?

Reykjavik

Mexico

Tokyo
