

Part 2: Read each scenario below the box with your partner. Determine if the scenario is safe or unsafe and drag the scenario piece to the correct side of the table. (Place your mouse on the box of what you want to drag. Click and hold to drag the box to the Safe or Unsafe box.)

Safe to do	Unsafe to do
<div data-bbox="255 430 486 600"></div> <div data-bbox="523 430 754 600"></div>	<div data-bbox="829 430 1061 600"></div> <div data-bbox="1098 430 1329 600"></div>
<div data-bbox="250 624 481 795"></div> <div data-bbox="515 624 746 795"></div>	<div data-bbox="829 636 1061 806"></div> <div data-bbox="1090 636 1321 806"></div>
<div data-bbox="255 819 486 990"></div>	<div data-bbox="829 837 1061 1008"></div>

I can tell an adult if I feel uncomfortable online.

I can use a nickname instead of my own name.

I can tell people that I am 9 years old.

I can share that I like to play soccer.

I can share my dogs name online.

I can help my friends learn about technology.

I can share my first and last name online.

I can tell people where my house is located.

I can go to websites adults have said I can't go on.

I can let my friends use my username and password.
