Read the article and choose the right words for the empty spaces – a, b or c. Write in the words, not the letters!

Cool Company

Gary and Stephanie Crawford have a special effects company. They 1) __**CREATE**__ snow, fog, wind and ice. You 2) _____ see their special effects in many films, for example *Spider-Man 2* and *The Lord of the Rings*, and also at rock concerts and big shows all over the world.

You can't 3)_____ control the weather, but the Crawfords' special effects are different. That's why their weather is often 4)_____ than the real thing! For example, the snow looks real 5)_____ it doesn't get dirty like real snow, or make a mess, and of course you can turn the snow machines on and off 6)_____ you want to. Their artificial snow 7)_____ bad for the environment, or poisonous or dangerous for the actors.

The Crawfords started their company 8)_____ 1987 but Gary was 9)_____ in special effect for a long time before that. He worked in the Hollywood movie studios for many years. 10)_____ that time, one of the most interesting jobs was on the film *E.T.* He created one of 11)_____ most famous images ever – a boy (with an alien!) is flying across the sky on a bicycle, in front of a huge moon.
