What is my dog doing?

Hi! You already know my dog "Charlie" I told you many things about him, but now, he is acting weird and he is doing the opposite. Today, he is eating some plants and drinking dirty water from the toilet. He is sleeping on my bed and is refusing to leave the house. My dog isn't exercising anymore. I'm feeling worried because my dog doesn't act that way. What is it happening to him?

Answer the following questions

1. Why is Bob worried?
2. What is Charlie eating?
3. What is he drinking?
4. Is Charlie doing exercise?

5 Where is he sleeping?
