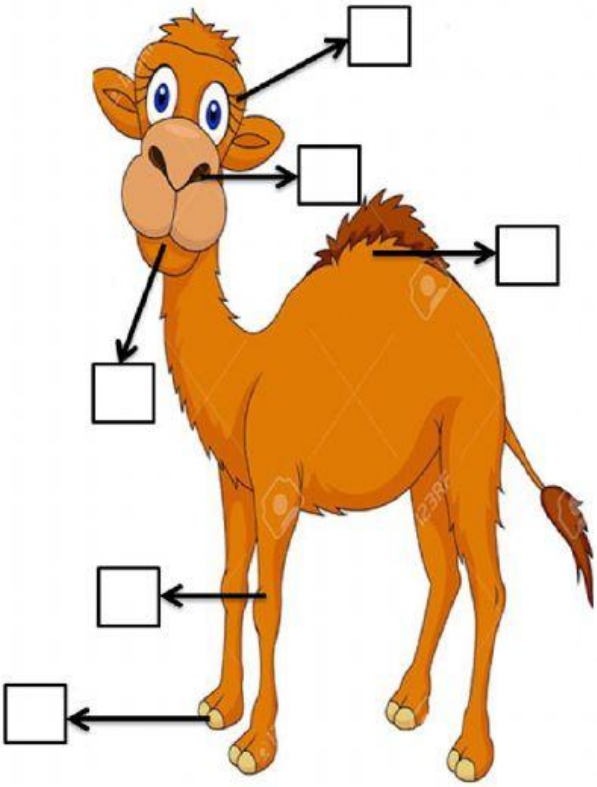
MADNI HIGH SCHOOL



Match the camel's body parts with the numbers ☺

1 A hump on the camel's back

2. Long, tick eyelashes

3. Nostrils that can open and close

4. A though, leathery mouth

5. Tough, leathery knee pads

6. Webbed feet with two toes.

Now match the numbers with the adaptations ☺

___ These help the camel to kneel on the hot sand

___ These protect the camel eyes from the sand and the sun

___ These prevent the camel from breathing in sand

___ These prevent the camel from skiing in the sand

___ This help the camel to have nutrients for a long time

___ This helps the camel to chew tough, thorny plants.
