I- Comprehension

8

Q2: Read the following passage then, answer the questions:

A German soldier was riding in the back seat of a World War I plane when the engine stalled as a result of an unusual gust of wind. He fell out of his seat while the plane was high above the ground. As he was falling, the plane's engine started again, and he landed back in his own seat. The pilot was then able to land the plane safely.
Bob Hail jumped out of an airplane in November 1972, but his main parachute failed to open. His backup parachute also failed. Bob dropped about 3,000 feet (900 meters) at 80 miles (128 kilometers) per hour and hit the ground face first. After a moment, he got up and walked away with only minor injuries. It was an amazing escape.

A : Answer these questions:

1 – When did Bob Hail jump out of an airplane?

.....

B: Choose the correct answer:

1- the story take place in:

❶ - World War II ❷- World War III ❸- World War I

LIVEWORKSHEETS
