Activity 2- Now please, Read Sueli opinions:

I think young people need better places to hang out. **If I were in charge of my town**, I´d build more community centers for kids to hang out in. I´d make sure each one had internet access, and good music system, too.

I don't think students need to stay on campus during breaks. **If I were in charge of my school,** kids would be able to leave campus during the lunch break. This would give them a chance to relax, and it would be good for local businesses to have more customers.

In my opinion, everyone needs to work harder to help other people in their community. **If I were in charge of my country**, I´d ask people to do volunteer work in nursing homes and homeless shelters. I´d also make it free to visit amusement parks and museums so more people could enjoy them. Sueli.

a-Complete the chart about the text:

What people need:	**Sueli´s suggestions:**
★ young people need better places to hang out. ★ students need to stay on campus during breaks. ★ everyone needs to work harder to help other people in their community.	---------- …….. ----------

Activity 3
Now, think about you and the place where you live.

What do we need? What would I do?

Then, complete the following chart:

What we need in our school:	**My suggestions:**
a gym	……..
a cafeteria	…….
a school theatre for students' performances	…….

That´s all! See you in class !
