Read the following passage and mark the letter A, B, C, or D to indicate the correct answer .

London, the capital of Great Britain, is one of the largest cities in the world. It is also a very old city, dating back nearly 2,000 years to days of the Roman Empire.

London, which is located on the river Thames and near the Atlantic coast, is one of the busiest centers of commerce and finance in the world.

People of many nationalities and occupations can be found in this historic city. In the shopping areas, a wide range of goods is offered to the public. People travel around the large, busy city in subways or in double-decked buses.

At the center of London is Trafalgar Square, with its tall statue Admiral Horatio Nelson, a British hero. Other attractions for visitors to London include Buckingham Palace, the Tower of London, St. Paul's Cathedral, the British Museum, and many lovely parks and gardens. Many visitors also go to Parliament to watch the British lawmakers at work in the House of Common and the House of Lords.

23:	A. plane	B. level	C. degree	D. extent

LIVEWORKSHEETS

Read the following passage and mark the letter A, B, C, or D to indicate the correct answer.

In the UK we each use about two hundred steel food and drink cans every year. Steel cans are popular because they are convenient; easy to store and unbreakable. But when you have finished with a can what do you do with it?

Do you throw it any way and forget all about it? Probably! but behind the scenes there are people whose job is to make sure that the steel is never wasted. In fact, recycling or reusing steel cans is so successful that every day of the year more than six million cans start new lives in new steel products.

After you have thrown your can, what happens? Well, first of all it is collected by the men who empty your dustbin each week and taken to a tip, together with all the other household rubbish. Then the rubbish is sorted and the steel cans are taken separately to a special factory which turns dirty old cans in to high quality steel. It's this steel which may well find its way back in to your home in the forms of knives and forks, garden equipment and, of course, food and drink cans.

So the next time you open your fizzy drink, just remember where your can may have been!

24: What is the writer trying to do in the text?

A. advertise canned drinks. B. describe the steel industry.

C. provide some information. D. describe rubbish collection.

25: Why would somebody read the text?

A. to discover what happens to old cans. B. to find out more about how steel is made.

C. to understand how rubbish is collected. D. to learn about the soft drink industry.

26: How do you know that re-using steel is very successful?

A. Every person uses 5000 cans a year. B. More than 5,000,000 cans are recycled daily.

C. All cans and tins are now made from steel. D. Over 6,000,000 cans are recycled every day.

27: After being taken to the tip, empty steel cans

A.are turn into high quality steel.

B.are washed and sent back to our homes.

C.are separated from rubbish and sent to a special factory to be recycled.

D.are made into knives, forks and garden equipment.

28: What does the writer suggest about our attitude to old cans?

A.We are not interested what happens to them. B.We are making things what happens to them

C.We could help by sending them to the factory. D.We should be more careful where we throw them
