Directions: Let's make a paragraph today.

What has happened? Where is everyone gone? Stuck in a ghost town, you first need to figure out where everyone has gone. Then you need to find a way to get them back. Has everyone been abducted by aliens? And somehow your video game kept you safe. Maybe there was a town evacuation and everyone has left town because something really bad is coming your way. This could even be a dream. Maybe you fell asleep playing your video game and now you need to find a way to wake up. What if you can never bring everyone back? You'll have to live alone on this planet. How will you survive? What will you do? Your task is to write a story about a young boy or girl, who leaves their home to find that everyone is gone. Their friends, family, neighbours, pets - Everyone is gone.
Find out why they are gone and how you can bring them back.
