LET'S TRAVEL

Thermas dos Laranjais

TO USE ARGUMENTATIVE STRATEGIES TO SUPPORT POINTS OF VIEW

Pretend our school is planning an amazing end-of-the-year-trip to a place you've always wanted to go. However only one student will have a chance to go. This student will have to collect information about this place in order to present it to her/his classmates next year. **Which arguments would you use to convince your teacher and the principal that you should be chosen? What is your strongest argument? Which strategies would you use to support these arguments?**
Would you compare yourself to other students? Would you give examples of your contribution to the school community?
