6 Crazy Reporters

Language Diary

1 I know that:

- we use ***just*** when the action happened a very short time ago:
  *The race has **just** started.*
  (It started a few minutes ago.)
- we use ***already*** when something has happened earlier than expected:
  *I've **already** won the title five times.*
  (This isn't the first time!)
- we often use ***yet*** in negative sentences and in questions:
  *He hasn't won **yet**.* (but he probably will)
  *Has the race started **yet**?*
