

## **LOGBOOK Z FROM THE TEACHER CLAUDIA'S REFUGE**

**Coordinates 24°53'28"N 136°47'20"E**

La invasión empezó!

Siendo el año 2035 se espera que en junio llegue un apocalipsis como nunca antes había conocido la humanidad. Aparecieron muertos vivientes cuya mordedura transforma a sus víctimas en zombies.

Multitudes de estos zombies se desplazan a Bogotá, buscando alimento. Hay gritos por toda la ciudad y ninguna ayuda se puede esperar pero el gobierno ha creado un refugio para aquellos valientes que decidan emprender el camino.

La misión si decides aceptarla será llegar al refugio esquivando los zombies en el camino y sus trampas porque si caes en una de estas debes ir al centro de emergencia más cercano, también debes abastecerte de provisiones porque el camino es largo.

First, you have to go to Manizales straight to the \_\_\_\_\_, then you have to run so fast to the \_\_\_\_\_ until you find Cali, later it's important to have food. You jump to the \_\_\_\_\_ until Nariño; so you have to go through the trap but OH NO, you fell into the trap. With much strength you go to the food supplies, but you have to visit the doctor to get your leg healed in Villavicencio you have to go to the \_\_\_\_\_. You are a warrior, your mission is to go to Putumayo for which you must go straight to \_\_\_\_\_. And finally to get to the refuge you must go to \_\_\_\_\_ in the center of the Amazon.

You must choose two tools to locate yourself and scape from the zombies. Then you must explain why do you choose those tools.

Compass

Map

Gps

Magnifying glass

Telescope

Why?

Join the tools with their use and description

Compass

It shows us a representation of the Earth's surface.

Map

Use the signal of radio waves to locate objects.

Gps

It has a magnetized needle that rotates freely and always moves one of its points towards the magnetic north.

Radar

This tool gives us the exact localitation using satellites.
