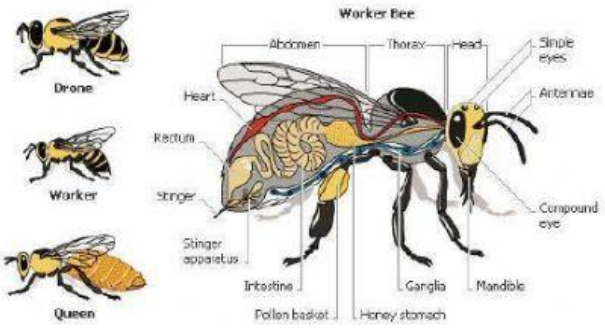
Worksheet: Roles of Bees in a Hive

There are three kinds of bees in a beehive: queen, worker, and drone. Each bee has a different role or job.



Choose the option that best completes the information.

<u>Bees</u>

The _____ bee's job is simple—she lays the eggs of bees. There is usually only a single queen in a hive.

_____ get food (pollen and nectar from flowers), build and protect the hive. They have a _____.

_____ bees are called drones—the third class of honeybee. Drones primarily exist for the purpose of _____. They do not defend the hive or kill intruders, and do not have a _____.
