Computer Games

Star City

Star City is a city-building game available for X-box, PlayStation, and Windows PC. Players have to build and look after a city in the future on another world. They have to decide what to do in an ever-changing city and be sure that the city and its people have everything they need to live. There are lots of problems and difficult things for the players to do but this makes the player think carefully so that they can make the best decision. This will probably help them in the real world. Players must be over eighteen years old to play this game.

Fast Drive

Fast Drive is a game that has lots of dangerous driving in it. Players are rewarded for driving on the wrong side of the road, driving into other cars or motorbikes, and creating problems all over a city. Parents of new teenage drivers might want to think about the fact that playing some racing games can make their children want to drive in such a way in real life. This game also has an online part that allows for chat, so each player will hear everything that other online players say.

Dinosaurs

What kid hasn't thought about how much fun it would be to have a pet dinosaur as a best friend, or maybe to go for a ride on the back of a fire-eating animal? *Dinosaurs* is perfect for children aged between 10 and 14. The players work with dinosaurs that they have found. The game is all about becoming friends with your dinosaur and it is like going on an adventure with a loved family pet that has big teeth. Sometimes the player has to repeat some actions too many times, which might be a bit boring, but most of the game is interesting.

Questions 14 – 18

For each question, choose the correct answer.

The Three Peaks Challenge

My name is Shaun Perkins. I am seventeen years old and I have just done the famous *Three Peaks Challenge*. This is a walking challenge which means that you have to walk up three high mountains. I did it to get money for my local children's hospital because they had helped my brother when he was very sick.

I did the walk with a special group because it can be quite dangerous especially if the weather is bad. They have a guide who shows you where to walk. When we started on the first mountain, I was worried that it would be too difficult for me but actually it wasn't as bad as I thought it was going to be.

We did the walk in the summer so that the weather would be good. The first two mountains were lovely as the sun was shining. However, we were half way up the third mountain when a storm suddenly came. It was raining and there was a heavy thunderstorm. I was very afraid. No one was hurt but we did get very wet.

The most important thing about this challenge is the clothes you wear. That means you need good walking boots, trousers and jacket, and a hat for the sun. It doesn't matter what your clothes look like but they must be comfortable. Also, you need a small bag.

I had a brilliant time on the challenge even though it rained. I didn't really have many people to talk to but the places where we walked were really beautiful and I loved looking all around me, on the mountains.
