# › 1.2 Plants in different habitats

## Focus

1 This plant needs light, water, soil and air.
Draw a good habitat around the plant.
Make sure the plant has all it needs.

2 In the table, draw a circle around the things that the plant will need to grow.

| | | |
|---|---|---|
| soil | rock | Sun |
| trowel | water | gardener |

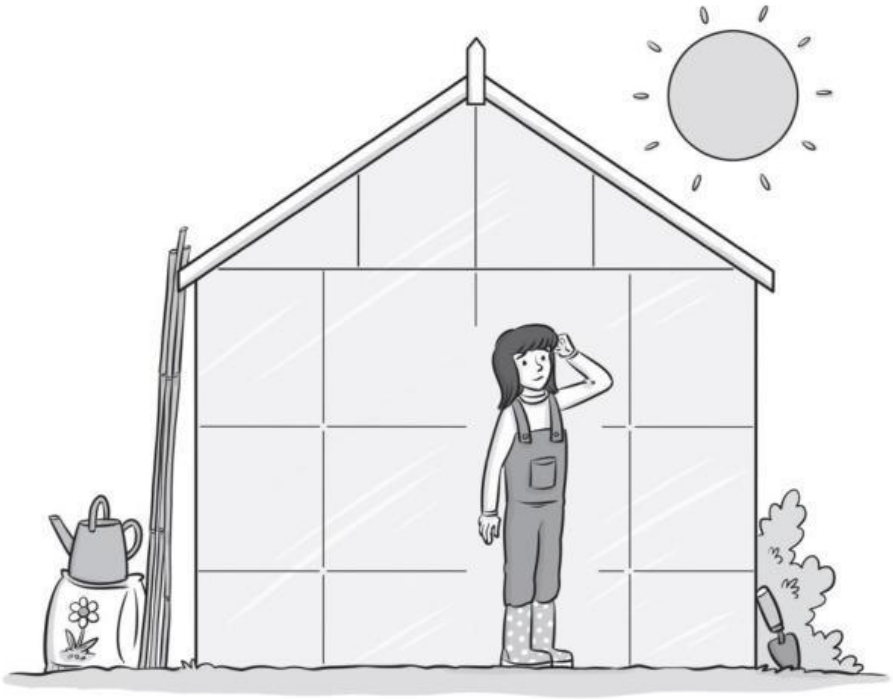
LIVEWORKSHEETS

## Practice

A glasshouse is a house made of glass for plants to grow in.

3 a Draw what you would put inside this glasshouse to make it a good place for plants.

b Label the things you draw.



LIVEWORKSHEETS

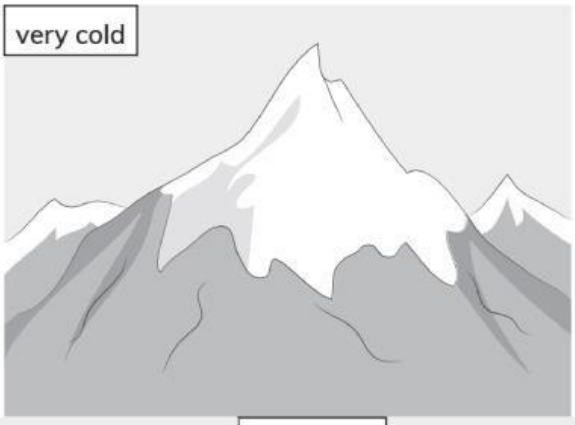
## Challenge

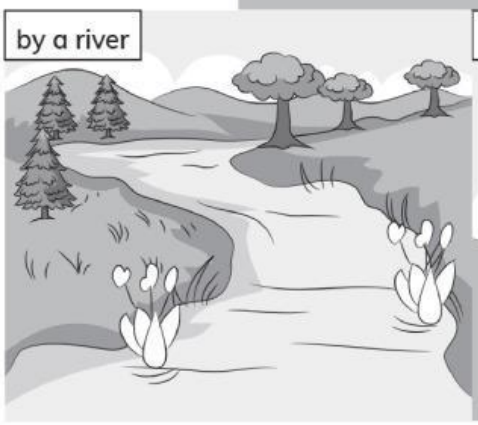
Some habitats are good for plants. Here plants will grow.

Some habitats are not so good for plants. Here plants will not grow well.

Some habitats are so bad for plants they won't grow at all.

Look at these three habitats.





Marcus plants a seed in each habitat.
