Dictionary

A dictionary is a book which 1. _____ definitions for hundreds of words to help learners understand difficult vocabulary. They used to be very popular; however, with the use of technological devices, in recent years dictionaries have 2. _____ lost their fame.

First, let's get to know what a dictionary is. A dictionary is a book which 3. _____ definitions for hundreds of words to help learners understand difficult vocabulary. Depending on the level of the book, it can be big or small in size. An 4. _____ level dictionary will be thick and big, but a general one is around our 5. _____ big, which is easy to bring along. Some dictionaries can be 6. _____, bilingual or more, which is very convenient.

On the other hand, even though dictionaries are great, they are not as great as phones, which are twenty-first 7. _____ tools that carry a lot of functions—camera, dictionary, 8. _____ and more. Compared to phones, dictionaries are heavier. Moreover, using phones can be faster because we don't need to 9. _____ through pages to find the word. Also, we can get the definition in different languages with phones. If we use dictionaries, we might need to carry two or three of them to have more language choices.

All in all, dictionaries are great, and they used to be in 10. _____ years ago, but with today's technology, they have become out of date. Personally, I would not mind using a dictionary, but if I had to choose only one, I would 11. _____ choose to use a phone.
