13 STEPS TO LONDON with Andy

READING

INSTRUCTIONS: Read the report and answer the questions

It's the start of our one-week school holiday in May. I'm getting ready for a holiday without technology! That means no mobile phones, no video games and no YouTube. I'm doing it as part of a school project. For the project, we're looking at lives of teenagers fifty years ago. So our homework is to spend the school holiday without technology and write a daily diary about it. We spend fifteen minutes writing about our opinions and feelings in our school diary every day and then we upload our diary entries to the school blog. That's the only time we can use technology!

It's only 4 p.m. on Saturday and I'm already missing my phone. It feels strange. My sister is sitting next to me on the sofa. She's texting her friends and laughing at me! My family think I can't live without technology. I want to show them they're wrong! How is everyone else doing?

Dan, 15 Add message | Report

I'm finding it easy at the moment. I play football every Saturday and so I don't usually play on my computer anyway.

Alexandra, 16 Add message | Report

I'm feeling a bit bored! I miss chatting to my friends online. I can't believe it's only day 1!

Sienna, 15 Add message | Report

It's easy for me because I'm staying with family in Wales for the holiday. We come every May on holiday. The house doesn't have wi-fi and my mobile has no signal here. I'm writing this in a café in the town. Our holidays here are always technology-free!

1 How many days is Marcus doing his project?

_____

2 What is Marcus' project about?

_____

3 Where does Marcus write about his project every day?

_____

4 How many minutes can Marcus spend on the computer each day?

_____

5 Who is laughing at Marcus?

_____

6 Who misses talking to his/her friends?

_____

7 Who often spends the holiday without technology?

_____

8 Who doesn't use a computer on Saturdays?

_____
