## SECTION B

[ 12 marks ]

**Question 9**

**Read the passage about the planets in our Solar System. Complete the table.**

There are eight planets in our Solar System. Mercury, Venus, Earth and Mars are called the inner planets. Mercury is the smallest planet in our Solar System. It is the closest to the sun but not the hottest.

Venus is the hottest planet. It is the brightest object in our sky other than the sun and the moon.

Earth is larger than Mercury, Venus and Mars. Jupiter, Saturn, Uranus and Neptune are called the outer planets. Jupiter is the largest planet in the Solar System.

Uranus is the coldest planet. Neptune is the farthest planet from the sun. It is also the windiest planet in the Solar System.

| Adjectives | Planet |
|---|---|
| **(i)** Largest | |
| **(ii)** Coldest | |
| **(iii)** Hottest | |
| **(iv)** Smallest | |
| **(v)** Closest to the sun | |
| **(vi)** Farthest from the sun | |
