We traveled to Paris in 2017. It was wonderful traveling and we saw many sightseeings, such as: the Eiffel Tower, Disneyland and famous bar Moulin rouge.

This bar is unique because there performed famous dancers and singers. This bar exists nowadays too. Main difference of this bar is very beautiful show. People in colorful costumes dance cancan. Usually, tickets are expensive, but this performance is so nice and amazing that everyone should go there.

Actually, if you visit Paris at noon you can not to notice the Moulin rouge, but at night this bar becomes a marvelous place with shining lights and special atmosphere. Many artists paint this bar on their pictures. I think, it's place which never out of date.
