GOLD EXPEREINCE A2+ - UNIT 6 P.75- LISTEN AND FILL IN THE BLANKS

Wild camping is allowed in Scotland, which means you can camp anywhere – in 1. _____, on 2._____, next to 3._____ or by the 4. _____. I definitely prefer wild camping to staying on campsites. Campsites are 5._____ and 6._____, like being in a city. But wild camping is magical – you can look out at the stars at night, hear the wind 7._____ through the trees and watch the sun coming up while you have your breakfast. Of course, you have to be sensible and choose a 8._____ place to camp. The main disadvantage is that you have to 9._____your 10._____ with you, plus all your food and water. And, of course, you have to carry all your 11._____ away with you. It's also not always fun washing your face in a 12._____ mountain 13._____! But for me, the feeling of freedom it gives you makes it all worth the effort!

LISTEN AND COMPLETE WITH USEFUL EXPRESSIONS (PAGE 75)

A: So, let's think about the best place for them to camp. Shall we start with the beach? Do you think that's a good idea?

B: Well, not really. _____ it's a dangerous place because the sea might come up in the night, especially if there's a storm.

LIVEWORKSHEETS

A: Yes, _____. I think a forest is a safer place because the trees will protect you from the wind.

B: Yes. And also, they could use wood to make a fire. So I think the forest would be more fun than the beach. And there are no dangerous wild animals in this country.

A: Yes, _____. But what about this one, near a stream? It might be useful to be close to water. What do you think?

B: No, _____. _____it's safe to drink water in the wild. I think it's better to carry your own water with you – then you know that it's clean.

A: Yes, _____. What do you think about this one, right up in the mountains?

B: Hmm … _____ very sensible to camp so far away from towns and villages. They might have an accident, and then they wouldn't be able to get help.

A: Yes, _____. _____ sensible to camp in a field. Fields are usually closer to villages. This one looks good because the wall will keep their tent safe from the wind.

B: Yes, but they shouldn't camp in a field with animals. I think that's the worst idea of them all.

LIVEWORKSHEETS

A: Yes. It wouldn't be easy to sleep with the animals all around!

B: So, shall we decide on the best place?

A: Yes. _____, it's either in the forest or the field next to a wall.

B: I agree with you. And I think that a forest is probably the best idea. They'll be safe from the wind and they can find wood to make a fire.

A: Yes. So, we'll go for that one
