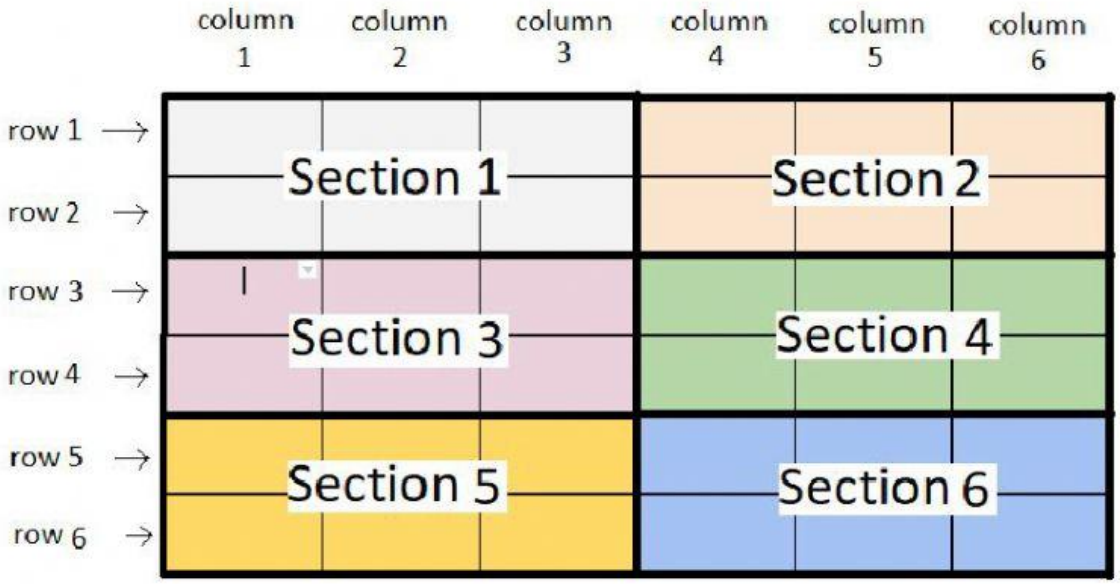
4. Resolve this sudoku.

Los sudokus clásicos se realizan con números, pero este lo vamos a realizar con palabras. Verás que en la tabla hay 6 secciones, cada una de un color. Cada sección tiene 6 casillas y en cada una de esas casillas debe ir una palabra de vocabulario.

El juego consiste en que las palabras **no se pueden repetir las palabras ni por sección, ni por columna, ni por fila.**

Para ayudarte, las hemos puesto de distintos colores así que verás que ningún color puede repetirse en la sección, en la columna y ni en la fila.

Observa el sudoku en blanco para saber qué es una sección (section), qué es una fila (row) y qué es una columna (column).



This are the words in colours to put in the sudoku. // Aquí tienes las palabras con sus colores que tienes que colocar en el sudoku.
