THE ZERO X FIRST CONDITIONAL FIASCO

Once upon a time, in the quirky town of Grammarville, the inhabitants had a peculiar problem. Zero X, a mischievous extraterrestrial, crash-landed in their grammar book, disrupting the rules of conditionals. Zero X had the power to transform any situation into a ludicrous one.

One sunny day, as the townspeople enjoyed their picnics, Zero X turned their world upside down. He declared, "If you eat the sun, you will turn into a rainbow!"

The ESL students, bewildered by this zero condition, attempted the impossible. They climbed trees, built ladders, and even flew kites to reach the sun. However, every effort ended in laughter and colorful food fights, but no rainbows.

The town's grammar expert, Professor Verb, tried to reason with Zero X. "Zero X," he said, "In first conditionals, we need a real condition for a possible result."

Zero X blinked his three eyes in confusion but agreed to give it a try. He proclaimed, "If you find a unicorn, it will give you a ride to the moon!"

The ESL students scoured the town, seeking unicorns in gardens, closets, and cereal boxes. No unicorns emerged, but they did discover a hidden portal to a parallel universe where unicorns did exist. Riding unicorns to the moon became a weekend tradition.

As Zero X continued to experiment with zero conditionals and first conditionals, Grammarville became a place of endless absurdity and adventure. It was a place where cats barked, pancakes sang opera, and pencils scribbled poetry.

1. What disrupted the rules of conditionals in Grammarville?

A) A mischievous extraterrestrial
B) A giant grammar book
C) A thunderstorm
D) A talking tree

2. What did Zero X declare would happen if you ate the sun?

A) You would turn into a rainbow.
B) You would become invisible.
C) You would grow wings.
D) You would speak in rhymes.

3. How did the ESL students try to reach the sun?

A) By building ladders
B) By flying kites
C) By climbing trees
D) All of the above

4. Who tried to reason with Zero X and explain first conditionals?

A) Professor Verb
B) Professor Noun
C) Professor Adjective
D) Professor Adverb

5. What did the ESL students discover when searching for unicorns?

A) Hidden treasure
B) A parallel universe
C) A magical book
D) A time machine
