Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the correct answer to each of the following questions from 31 to 36.

Hurricanes are one of nature's most powerful storms that can cause **disastrous** effects when they hit land. Hurricanes can produce strong winds, reaching speeds of up to 200 miles per hour. These storms often bring with them heavy rain, storm surges, landslides, and flooding. Depending on the location of the storm, it has different names. In places like the USA or the Caribbean, it is known as a hurricane. In countries near the Indian Ocean like India, Australia, Bangladesh, etc., it is referred to as cyclones. In the western Pacific Ocean, near the Philippines, Japan, China, and other parts of east Asia, the storm is called a typhoon. When a hurricane strikes, it is important to listen to weather reports and follow the instructions of emergency officials. If you live in a coastal area, leave your house whenever you are advised to do so. If you stay home, make sure your home is well-prepared for a hurricane. Create an emergency kit that has a flashlight, first aid kit, food, and bottled water in it. Stay away from windows and doors during a hurricane, and do not go outside until you are absolutely **certain** it is safe.

Question 31. What speed can hurricane winds reach?

A. 50 miles per hour

B. 100 miles per hour

C. 150 miles per hour

D. up to 200 miles per hour

LIVEWORKSHEETS
