Objective: Read the following passage and answer the questions

Introducing New Motorhome

Today, I'd like to introduce our new motorhome for our dear customers! First, this latest build is built for pure traveling purpose which makes it better than the old build in term of gasoline consuming for 15 percent. Second, with the new technology, this motorhome can be accelerated up to 120 mph which is faster than older motorhomes by 30 percent. As you can see, our new motorhomes are far better than the older builds in term of gas consuming and speed. However, it's also more expensive than old motorhomes too!

1. What happened in the news?
