Directions: Let's make a paragraph today.

How did your father, the captain of the Red Wave ship raise you? Think about the things he taught you such as learning how to fish or how to use sword in battle. Did you have any daily chores? And which chore did you hate doing? Such as cleaning toilets or cooking for the rest of the crew. What about your mother? Is she also a pirate or maybe she's a beautiful mermaid lost at sea? Think about the games you played on the ship. And did you have any friends or a best friend? Describe the rest of the crew members. Are they nice, funny or are they horrible to you? Talk about a moment in your life when you were most scared. Like fighting a sea monster or getting lost at sea. What was the happiest moment in your life? Was it a finding a rare treasure or getting the respect of your father?
