Read the following passage about driverless cars and mark the letter A, B, C, or D on your answer sheet to indicate the option that best fits each of the numbered blanks from 18 to 22.

Driverless cars, also known as autonomous vehicles, (18) _____. These vehicles rely on advanced artificial intelligence and sensor technologies to operate independently, without human intervention. This innovation not only minimizes accidents caused by human error but also optimizes traffic flow, reducing congestion in urban areas.

One significant feature (19) _____ and urban planners is their potential to communicate with other vehicles and infrastructure. This vehicle-to-everything (V2X) communication allows for a coordinated traffic system, where cars can anticipate and avoid obstacles, adjust speed, and even signal each other to ensure a smooth drive.

Despite these advantages, significant concerns remain about the safety and ethical implications of autonomous vehicles. Machines make complex decisions that raise questions about accountability in case of accidents. (20) _____.

Driverless car offer a safer, more efficient transportation experience. Promising transformative benefits to society, (21) _____. These vehicles still face significant regulatory, technical, and ethical challenges. (22) _____.

Read the following passage about endangered languages and mark the letter A, B, C, or D on your answer sheet to indicate the best answer to each of the following questions from 23 to 30.

Language is a powerful marker of cultural identity, yet many indigenous languages are at risk of extinction. In multicultural societies, minority languages often struggle to survive as dominant languages take precedence in education, media, and government. This linguistic shift can weaken community ties and **erode** cultural heritage. Efforts to preserve endangered languages are essential for maintaining cultural diversity.

Bilingual education programs are one way to promote language preservation. By integrating native languages into their curriculum, schools can foster a sense of pride among young speakers. Additionally, these programs encourage cross-cultural understanding among students from different backgrounds, helping **them** appreciate diverse perspectives. Bilingualism not only benefits individuals cognitively but also strengthens their cultural connections within society.

Digital platforms have become essential in the effort to preserve endangered languages**.** Language apps, online dictionaries, and social media are **conducive** to helping speakers of these languages share their knowledge widely, reaching audiences far beyond their own communities. Such tools enable younger generations to connect with and learn their ancestral languages, securing their survival. In this way, technology plays a vital role in sustaining minority languages in the digital era.

While there are challenges in preserving languages, every effort is valuable**. Language represents more than just words because it encapsulates traditions, wisdom, and worldview.** Protecting linguistic diversity in multicultural societies is crucial for fostering a world where every culture's voice is heard and valued.

Question 23 (696866): Which of the following is **NOT** mentioned as an area where dominant languages take precedence over minority languages in multicultural societies?

Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the best answer to each of the following questions from 31 to 40.

The rapid development of industry has been a driving force behind economic growth worldwide, providing employment and improving living standards. **[I]** From manufacturing to energy production, industries contribute significantly to modern society's infrastructure. **[II]** Industrial activities release large amounts of greenhouse gases and pollutants, contaminate water sources, and contribute to deforestation. **[III]** The damage inflicted by industry is now a major concern for scientists and policymakers alike, as it endangers ecosystems and public health. **[IV]**

One of the most pressing issues linked to industrial growth is air pollution. Factories and power plants release vast quantities of carbon dioxide, sulfur dioxide, and other harmful emissions into the atmosphere, fueling climate change and contributing to respiratory diseases in humans. Water pollution is equally severe, with toxic industrial waste often dumped into rivers and oceans, damaging marine life and contaminating water supplies. Furthermore, the heavy reliance on non-renewable resources, such as coal and oil, **is <u>taking a toll on</u>** natural resources, intensifying environmental degradation. Combined, these factors underscore the urgent need to address the environmental repercussions of industrial activities.

To mitigate these effects, industries must adopt sustainable practices that reduce **<u>their</u>** environmental impact. One effective approach is the transition to clean energy sources, such as solar and wind, which produce **<u>minimal</u>** emissions compared to fossil fuels. Another solution is the implementation of stricter waste management practices to prevent hazardous materials from contaminating water bodies.

Additionally, investing in technology that improves energy efficiency in manufacturing processes can significantly reduce pollution. Governments can also enforce regulations that limit emissions and incentivize companies to adopt green practices, further promoting sustainable industrial development.

<u>While these changes require substantial investment and collective effort, they are essential for the long-term health of our planet</u>. By committing to sustainable practices, industries can balance growth with environmental responsibility, creating a future where both the economy and the natural world can thrive.

Question 31 (696875): Where in paragraph 1 does the following sentence best fit?
However, this progress has come at a high cost to the environment.

B. Scientists and policymakers see industrial emissions as an inevitable cost of economic growth.
C. Non-renewable resources like coal and oil have a minor impact on environmental degradation.
D. Governments are encouraged to implement policies that promote sustainable industrial practices.

Question 38 (696882): Which of the following best paraphrases the underlined sentence in paragraph 4?
A. Not until these changes are implemented will the long-term health of our planet be achieved in spite of the high cost and individual effort.
B. Were these changes to be implemented for the long-term health of our planet, they would demand much investment or combined effort.
C. These changes are important for the long-term health of our planet despite demanding significant investment and combined efforts.
D. Because these changes are costly and require combined efforts, they are not vital for the long-term health of our planet.

Question 39 (696883): Which of the following is **TRUE** according to the passage?
A. Sustainable practices can enable industries to achieve both economic and environmental goals in the long term.
B. Industrial development will have limited economic benefits if sustainable practices are widely implemented.
C. The economy and the environment are unlikely to coexist if industries continue unsustainable practices.
D. Industries will face fewer regulatory challenges if they prioritize economic growth over environmental health.

Question 40 (696874): Which of the following best summarises the passage?
A. Industrial growth enhances the economy, but government regulation alone can solve environmental issues caused by resource depletion.
B. Industrial activities have advanced the economy by creating jobs, yet these activities contribute heavily to pollution and resource depletion.
C. Industrial growth has driven economic development but has also caused significant environmental damage, leading to calls for more sustainable practices.
D. Industrial expansion has created opportunities for economic growth and better living standards, while environmentalists urge stricter pollution control.
