PRE-LISTENING

There are some vocabularies that will appear on the recording. Let's guess the meaning of each vocabulary by dragging its meaning equivalent to the vocabulary.

Sort elements

- a formal (often written) request for something, such as a job, permission to do something or a place at a college or university
- having a strong desire to know about something
- to give a document, proposal, etc. to somebody in authority so that they can study or consider it
- a plan or preparation that you make so that something can happen
- (of rules, methods, etc.) very strict and difficult to change
- to do something wrong or illegal

VOCABULARY PRACTICE

Let's listen to the recording again and fill in blanks below

Before your **1** , you might be **2** about what sort of **3** you could go to. There are four main **4** , but you also have the **5** to **6** a different location and if they can make the necessary **7** , you can go. The first country Earn and Learn **8** locations in was the U.S., where you may choose from **9** locations, as long as you can **10** to their more **11** schedule of August to December.

Also, you could do the Australia **12** . That one is really cool – you work at a wildlife **13** and learn about the business practices of **14** organisations. You do have to be willing to commit 8 months for that one, though. Perhaps that's a long time to be so far away, but I would say it is really an **15** opportunity.

I don't know whether some of you are in **16** physical shape. If so, the South Africa internship is another exciting one – you learn a lot about **17** farming – but you would be doing some of the manual labor **18** in maintaining a farm. Indeed, it's hard work, but I think you would definitely be able to do it. It may be wise to wait until after their **19** is over so it's not so **20** hot.

In addition, there is a most **21** established location in India. This one gives you more of a study abroad feel, given that they **22** a host family for you to stay with. In the other locations, you live in an **23** with other **24** , so this is definitely a **25** experience.
