Canaan Christian Academy

Math Quizz

Name: _____ Date: _____

Perform the following additions and subtractions and write down the simplified fraction.

- $\frac{5}{8} + \frac{1}{4} = \frac{\square}{\square}$
- $\frac{2}{12} + \frac{4}{12} = \frac{\square}{\square}$
- $\frac{21}{12} - \frac{6}{18} = \square\,\frac{\square}{\square}$
- $\frac{18}{15} - \frac{6}{15} = \frac{\square}{\square}$
- $\frac{5}{6} + \frac{4}{8} = \square\,\frac{\square}{\square}$
- $\frac{24}{15} - \frac{19}{15} = \frac{\square}{\square}$
