Christopher Columbus was born in Genoa, Italy in 1451 . His career in exploration started when he was very young. As a teenager he travelled the seas . He appealed to the kings of Portugal, France and England to finance a westward trip to the Indies, but all denied his request. After ten years of monumental efforts but fruitless , king Ferdinand and Queen Isabella of Spain agreed to finance Columbus in the hopes of acquiring great wealth .

On August 3, 1492, Columbus and three ships , the Nina , Pinta , and Santa Maria , left Palos , Spain and headed westward . After stopping in the Canary Islands off the coast of Africa , Columbus' ships hit the open seas. The trip was long and hard. The crew was afraid of sea monsters . After two months , on October 12, the land was finally sighted one of the Bahama Islands. He named the land San Salvador. He named the native people he saw " Indians " .

He died with the belief that he had found the shortcut to the Indies . Soon , however , other explorers and nations understood the importance of his discoveries . Columbus' discoveries set the stage for the Age of Exploration , one of the most fascinating times in the world history.

Christopher Columbus made one of the greatest discoveries in the history of the world North America . Today , we celebrate Columbus Day in October to commemorate his discoveries.
